

## Coaxial Cable Assemblies

Ready to go coax cables from Bushcomm

Bushcomm can provide a range of ready made coaxial cables suitable for HF, VHF and UHF communications.

Bushcomm cables are made of high quality low loss MIL spec RG58 or RG213 coaxial cable and terminated with quality sealed clamp-style connectors.

Cable assemblies are available with either bright plated connectors or with blackened antiglare connectors for military use.

Clamp-style connectors have an internal sealing gasket and a locking nut to provide a positive mechanical connection between cable and connector.

If necessary, these connectors can also be serviced in the field, whereas crimp style connectors cannot.

Bushcomm cable standards.

M17/28-RG58 (RG58c/u)

M17/74-RG213 (RG213U)

Part Code	Description	Length	Male Connectors	Connector Finish
CX2	RG58 Coaxial	5m	BNC/UHF	bright
CX4	RG58 Coaxial	5m	UHF	bright
CX8	<b>RG213</b> Coaxial	30m	UHF	bright
BU00010	RG58 Coaxial	10m	UHF	bright
BU00415	RG58 Coaxial	30m	UHF	black
BU00416	RG58 Coaxial	10m	UHF	black
BU00422	RG58 Coaxial	10m	BNC/UHF	black
BU00542	<b>RG213</b> Coaxial	30m	UHF-N	bright
BU00661	RG58 Coaxial	1m	UHF	bright
BU00662	RG58 Coaxial	0.5m	UHF	bright
BU00757	RG258 Coaxial	10m	N-BNC	black
BU00829	RG58 coaxial	20m	N-N	black
BU00879	RG58 coaxial	20m	UHF	black
